

Hello, and thank you for choosing this MissionCIT course. My name is Missah and this is my colleague Justin. We are the hosts for this lesson called Medical Terminology where we will be talking about how to create and remember medical terminologies. There's a specific pattern associated with the naming conventions, and this is the secret to remembering these medical terms. At the end of this lesson, you can understand and communicate effectively with other healthcare professionals, as you're expected to know the medical terminologies required for a precise explanation of a patient's condition.

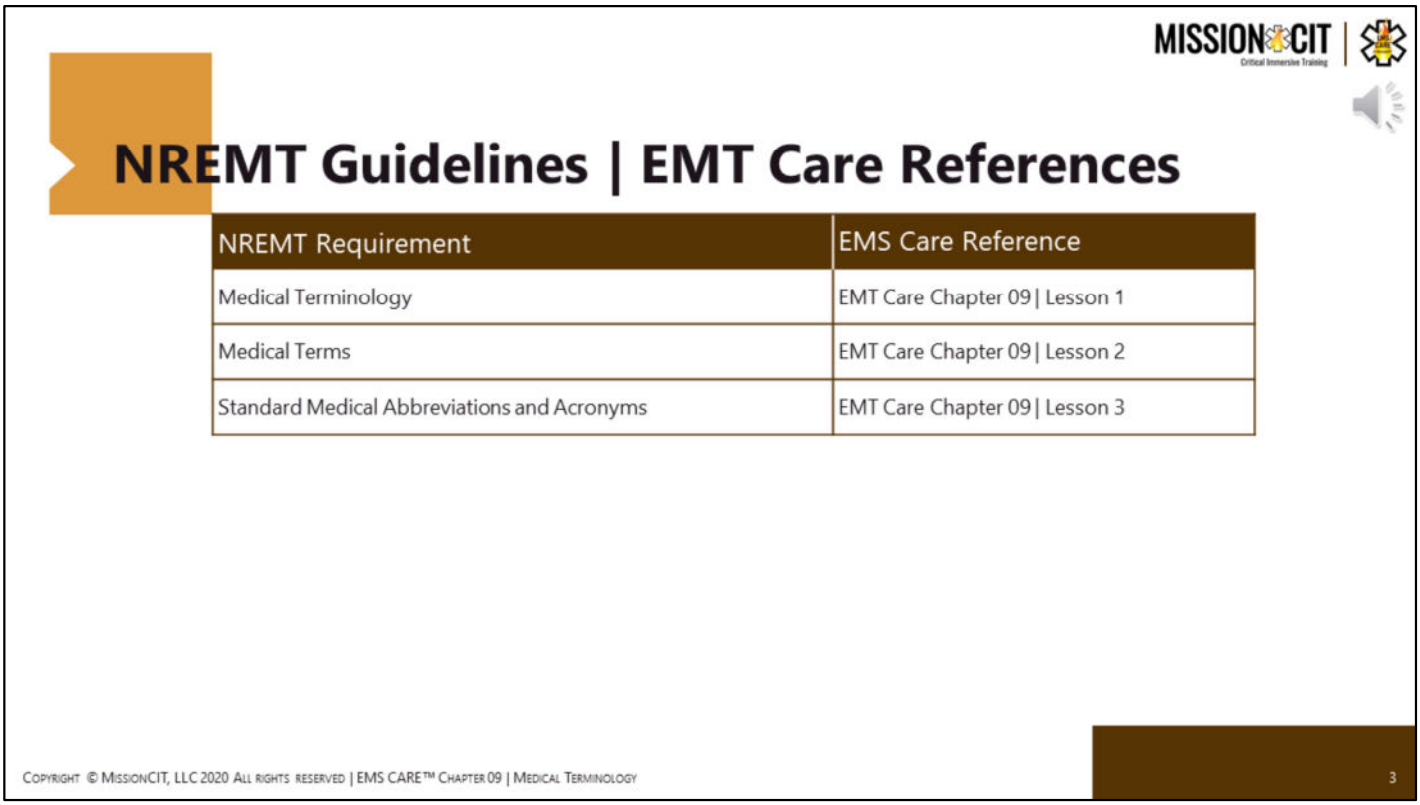

Sounds interesting Missah! Can't wait to get started.

We will review the following lessons in this chapter:

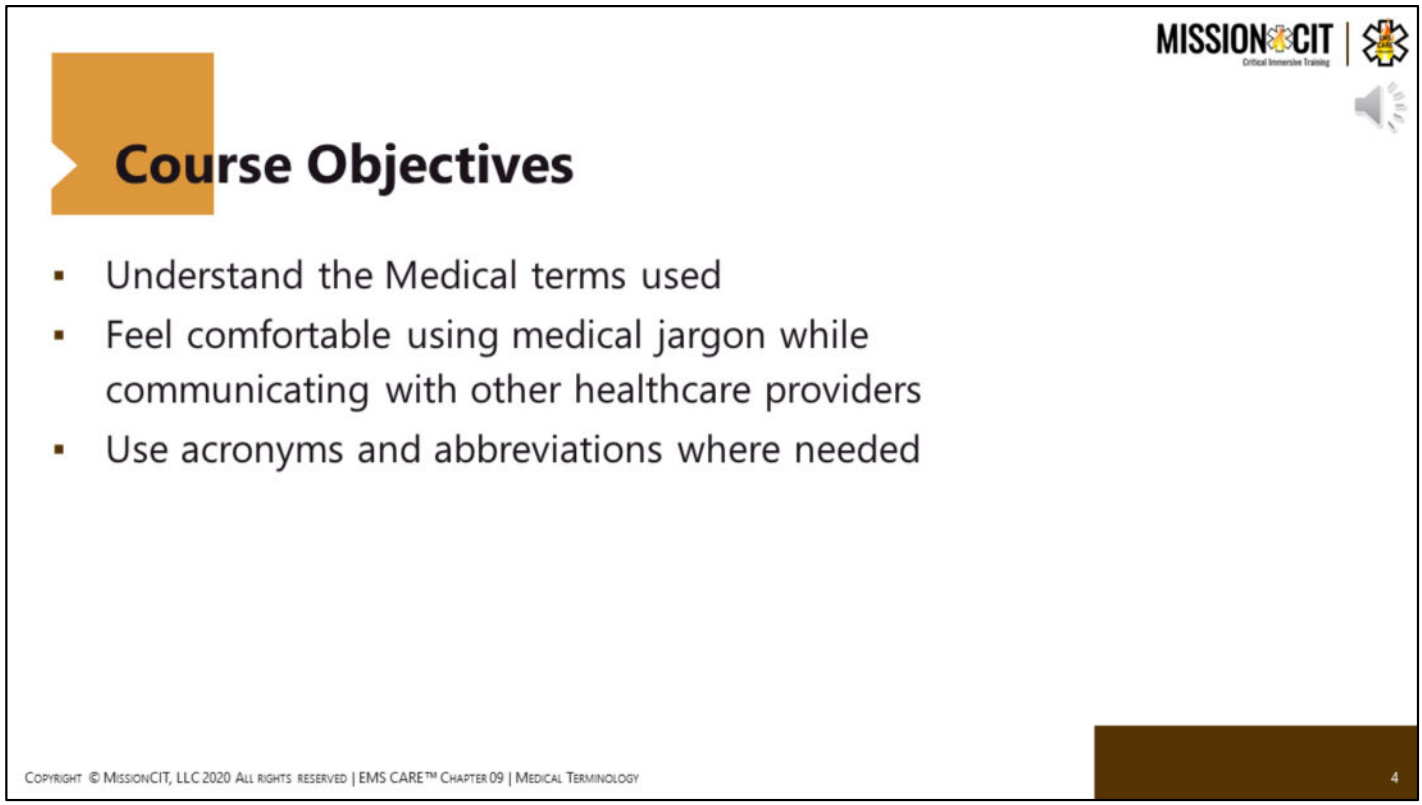

- Lesson 1: Medical Terminology
- Lesson 2: Medical Terms
- Lesson 3: Standard Medical Abbreviations and Acronyms

We complete our studies with a Chapter Review followed by a quiz. You will need to watch all the lessons, answer the interactive questions; and finally score a 75% grade or higher on the quiz, to get credit for this chapter.

This course fulfills all the NREMT guidelines:

- Medical Terminology
- Medical Terms
- Standard Medical Abbreviations and Acronyms

The objectives of this course are:

- Understand the Medical terms used
- Feel comfortable using medical jargon while communicating with other healthcare providers
- Use acronyms and abbreviations where needed

Now that you have an idea of what to expect from this course, let's get started.
